WARRANT.

To the Inhabitants of the town of Hanover qualified to vote in town affairs.

YOU ARE HEREBY NOTIFIED to meet at the Hall of Joseph Tenney, in said town, on the second Tuesday of March next, at eleven of the clock, in the forenoon, to act upon the following subjects :

1st. To choose a moderator to preside in said meeting.

2nd. To choose all necessary town officers and agents for the year ensuing.

3rd. To see if the town will vote to purchase one or more road machines for the use of the town and raise the money therefor.

4th. To raise such sums of money as may be necessary for the support of schools; for the maintenance of the poor; for laying out and repairing highways; and building and repairing bridges; and for other necessary charges arising within the town.

5th. To hear the reports of agents, auditors, committees, or officers heretofore chosen, and pass any vote relating thereto.

6th. To take the sense of the qualified voters on the following question, viz : Is it expedient that a convention be called to revise the constitution ?

7th. To see if the town will vote to have all money taxes paid at the office of the collector of taxes.

Given under our hands and seal this 18th day of February, A. D. 1886.

REPORT
OF THE
TOWN SUPERINTENDENT OF SCHOOLS
AND OF THE
BOARD OF EDUCATION FOR DISTRICT No. 1.

The Board of education for this District respectfully present the following Report :

Our schools have all been in session three terms of twelve weeks each during the past year and have maintained the high character and excellence which have characterized them for some years past.

By adhering to a course of study adapted to the different grades of our schools, time has been saved, the classification simplified, and the scholarship of the pupils improved. The education imparted in many of our public schools loses half its effectiveness by the fragmentary and unsystematic way in which it is acquired. There should be continuity and some logical sequence in our studies to secure the best results in the intellectual and moral development of the young. Mental habits and traits of character are formed with ease but dropped with difficulty, and our public schools should be organized and their courses of study arranged with an intelligent reference to this fact. It is hoped that our new school law will lay the foundation for better work in this direction.

Our High School has been unfortunate the past year in its frequent change of teachers. At the close of the first term we lost the valuable services of Miss Armes. The second term opened under the instruction of an experienced teacher from Boston, who left after a brief stay, and the term was closed by Miss Blanche Wentworth of Cambridge, Mass., who won the hearts of her scholars and the respect and confidence of the community. The last term of the year Miss Jessie P. Learoyd, a

graduate of the Salem Normal School, has had charge of the school. She has done thorough work and given entire satisfaction to the committee.

Miss Miller left our Intermediate School at the close of the Spring Term to enter upon a new field of duties into which the kind wishes of all the patrons of the school have followed her. Miss Miller was succeeded by one of "our own girls," Miss Myra A. Warden, who has been doing excellent work.

The First Primary has been taught through the year by Miss Hilliard who, having received a call "to go up higher," will not, we regret to say, return next year. Miss Hilliard has been a most faithful and successful teacher and her influence upon the school has been only good.

The Second Primary for a part of the year has been deprived of the valuable services of its legitimste teacher, Miss H. M. Field, but her place has been ably filled in successive terms by her two sisters.

In closing, we desire to congratulate the people of the District upon the character and influence of their school which they have sustained for years with a liberality which is alike honorable to their intelligence and patriotism.

*Schools now in session.

Most of the teachers have done well in some respects, but it is not to be expected that all will do equally well, for all have not received the same gifts, yet each should strive to do his best. When we find a teacher having the faculty of imparting instruction, easily illustrating and explaining clearly, combined with the ability to manage and control his school in an easy, quiet way, without show or effort, such a teacher should be retained though he demand large pay for his services, for they are reasonable at almost any price.

One of the means to avoid poor schools is to be very careful not to hire poor teachers. Either procure those of known ability or those who can give good evidence of being well fitted for their work.

A good school is the result of harmonious work. Hire competent teachers, give them your hearty support, encourage the children to do their best, and above all, allow no personal feeling to stand in the way of the greatest prosperity of the school.

All of which is respectfully submitted.
